TACE Chairman's Desk

Shri. S. Senthil Kumar,
E.S Group of Institutions,
Managed by ESKK, Villupuram.

“Life teaches you a new lesson every day, if you are attentive enough in the class of life.”

I take immense pleasure in conveying my heartfelt congratulations to all of you that the college magazine committee has put in their best efforts to bring out the first college magazine for the academic year 2022-23. The magazine, I feel, will mirror the creative and innovative ideas of both the teachers and the students. The articles published in it, I hope, will be of contemporary relevance. I congratulate the convener and the committee members on having successfully brought out the magazine in a very useful way. I am sure that the college will continue to scale new heights.

I wish the college success in all its endeavours.

TACE Secretary's Desk

Mrs. S. Nisha Senthil Kumar
Joint Secretary,
E.S.S.K Educational Charities

Teacher Education is an extremely noble profession and for those aspiring to opt for it as a career will get a chance to serve the society and nation. Ever since the inception of the institution, our aim is to educate and develop the women student's capabilities to meet the challenges in today's dynamic and globalized environment.

I am certain that TACE will grow to greater heights in the years to come to attain the pinnacle of excellence in the field of Education.

TACE Principal's Desk

It gives me great pleasure to write a few words as a prologue for our college magazine. It is exclusively meant for bringing out the potential writing talent as a part of your overall personality development. We are sure this magazine will help to acquire knowledge and skills, build character and enhance employability of our young talented students to become globally competent. The all-round progress of our students is of paramount importance and our most cherished motto as it will help them to empower better India through education. It is indeed a matter of great pride that our group has made outstanding progress, in academic, co-curricular and extra-curricular activities.

I feel proud of being the Principal of such a magnificent institution fully dedicated for the betterment of students. I congratulate all the contributors and the editorial board for bringing out such an outstanding magazine.

As the Principal of Theivanai Ammal College of Education, Villupuram, it gives me deep privilege and pleasure to state that this institution is making consistent, insistent and persistent efforts to serve the nation in the best possible way. The main focus of the institution is to empower the students with sound knowledge, wisdom, experience, life values and methodological training both at the academic level and in the highly competitive global market.

The institution aims at changing the face of Villupuram district and its surrounding region by acting as a prime centre of knowledge enhancement and career development. I extend my wishes to all the readers of this message and invite you to join hands with us in our noble mission.

Wishing you the best for scaling bigger success and achieving new heights in the coming days.

Dr. S. Murugan

Principal,
Theivanai Ammal College of Education.

Dean of Academic Development's Desk

Education is the key that unlocks limitless possibilities. I encourage you to embrace the transformative power of knowledge. Let us strive to create inclusive learning environments, foster critical thinking, and empower our students to become compassionate and visionary educators. Together, we can shape a brighter future through the pursuit of excellence in education.

As educators, it is our responsibility to create inclusive and dynamic learning environments, where every student can thrive and develop their unique potential.

I am confident that our TACE will continue to be a beacon of knowledge, empowering generations to make a meaningful impact in society.

Wishing you all an enriching and transformative academic year.

Warm Regards

Dr. A. Muthuraja

Dean of Academic Development,
ES Group of Institutions.

Dean of NAAC Desk

Welcome to Theivanai Ammal College of Education!. TACE has carved a niche of its own by virtue of its infrastructure and campus, versatile faculties as well as quality output. TACE aims to create an enduring model for advanced global education by providing the teacher trainees innovative ICT resources and environment to facilitate learning and holistic development to make them globally competent to answer the challenges.

I am sure that TACE Teachers will become role models to the future citizens of the country.

Warm Regards

Dr. J. Kalaimathi

Dean NAAC,
ESSK Group of Institutions.

Editor's Desk

Dear Readers,

You have in your hands of our 1st college magazine 2022-2023, which is a compilation of immense efforts put forward by the students of Theivanai Ammal College of Education. Extracting skills, ideas and talents was not an easy task but we finally made it possible.

This magazine is not the outcome of the effort put in by an individual but is the immense effort put forward by, first and foremost, Our Chairman sir, Secretary Madam, and our Principal sir, who always remains in the forefront to encourage and inspire to execute wonderful ideas, We are thankful to the blooming writers who penned their ideas for the college magazine, We thank you all for extending help. We apologize for our shortcomings and expect that you all will appreciate our efforts.

We have for you, from our budding writers, a wide range of creativity in the form of poetry and informative and inspiring articles.

Happy Reading!

Contamination in Food Crops : Risk Assessment and Control in Smart Age

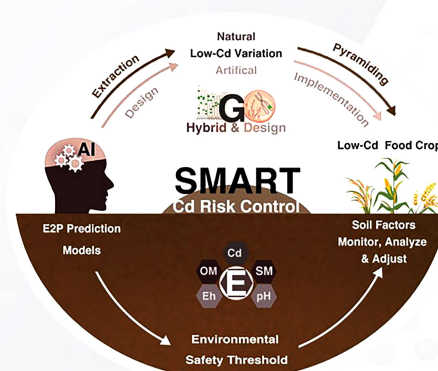

Mr. D.Sundaralingam
VP & Assistant Professor,
Theivanai Ammal College of Education.

With mankind entering the smart age, Cd contamination risk control in food crop revolution has been put on the agenda. Based on the theoretical basis, technical methods and developing trends, this review look back and forward the age of Cd contamination risk control driven by ‘genotype (G)+ envirotpe (E)’ dual-engines. Focusing on G, an inter-specific Cd contamination risk assessment meta-analysis was carried, in which a higher Cd contamination risk in rice and wheat than maize was observed. So different strategies are recommended to be taken considering inter-specific difference.

To control the risk in crops with high accumulating characteristic, smart creation of low-Cd crops can be applied by two methods: 1) Excavating and pyramiding natural variations in natural population and 2) designing and implementing artificial variations which do not exist in natural population. Focusing on E, the influence of environmental factors to food crop Cd accumulation was discussed and the strategy using Envirotpe-to-phenotype (E2P) models to predict and implement safety threshold were offered.

In the foreseeable future, with the support of environmental science, biology, big data, artificial intelligence and other interdisciplinary and multi-technology, Cd contamination risk control will move toward intelligent, efficient and directional, ultimately realizing the revolutionary transformation from ‘experience’ to ‘smart’.

Self Esteem

Dr. I. Jothi

Assistant Professor of Mathematics,
Theivanai Ammal College of Education.

Once in a small village, there lived a girl named Angelica. She was as black as char-Coal and had a deformed nose and cleft lip. She had a skinny body and disheveled hair. All in all, she was ugly. And her mother often thought that someone had disfigured an Angelic creation. She had no friends. No one ever wanted to talk to her. In school, no one wanted to sit with her. At night she would go to the terrace of her house and sing Aloud to the sky. Her voice was very special. But she won't sing at school because no one knows about her ability and she was not confident in herself. One day she was crying bitterly and singing aloud.

Her next-door neighbour heard her and came to her house and congratulated her on her sweet voice. He took her to different competitions and encourages her to sing. And that made all the difference. She became known in her family, Society and also in school. Everyone wanted to be her friend.

In this story what made the difference? It was this identifying her talent and seizing the opportunity. To do this self-esteem or loving oneself is very important. So believe in yourself.

Humanity - The Essence of our Existence

**The greatness of humanity is not in being human,
But in being humane** *- Mahatma Gandhi*

Mr. R. Ravindhar

Assistant Professor of Commerce,
Theivanai Ammal College of Education.

Humanity is a value that binds all human beings together. The power of human species is considerable over the non-human world. This is mainly because our intelligence has consistently invented and deployed tools and technology which means we have come to dominate the earth and our imagination has shaped religious and political meaning around which we form competing interests and social movements. Technology will not just change us where we are but also change where we can be. Humanity will be enhanced in time and space but also relocated across time and space.

Our human power will become even greater but what about our wisdom and the way we use this new power of humanity? The fundamental principle of humanity is “To prevent and alleviate human suffering wherever it may be found and to protect life and health and ensure respect for the human being”. Currently, the principle of humanity is expressed as caring only about one species-our own. But, this is neither true nor realistic. Therefore it must keep pace with the ethical evolution of humanity (the species) and needs to expand in purpose and behavior towards non-human life.

As a global community, let's keep space in our hearts for each other. Particularly, for people dealing with both the Covid 19 pandemic and war.

Dare to Dream

Dr. R.Indhumathi

Assistant Professor of English,
Theivanai Ammal College of Education.

DARE TO DREAM,
Don't be dwarfed by stark reality,
By man's bestiality,
Or his crass partiality,
For if you can but visualize,
Success of any size,
It is yours to take charge.
'Gainst fortune's closed doors, don't fear to barge,
As fortune favours the bold,
Dreams warm those hopes gone cold.

Dare to dream,
Of a life,
Where liberty you need not surrender.
The world's your oyster,
Your dreams the cloister,
In whose shade, your soul is enriched,
You mind, by success bewitched.
Yours sinews empowered to do or die.
You awake to find you no longer need to cry.

Dare to dream,
And the world will never be the same.

Dare to dream,
Your hopes to redeem,
From strangulation, from suffocations,
In the quicksand of despair,
In the furnace of life so unfair,
To succeed a path you must trace,
To have 'Neath the sun, a place,
To raise your head, to forge ahead,
Dream leads the way,
No matter what men may say,
A blueprint of the future, they draw.
Like a pillar of fire, they go before!

darkness is just a word
but it is my lifetime friend
When darkness is hide
for that knows me, who I am
darkness have a ear to listen
It teach to talk with the silence
It teach to the see with in dark
it knows the everything like
it knows the reason of smile
it knows the reason of happiness
it knows the reason of sorrow
it knows the reason of shed of tears
it knows the reason if the fear
it knows the reason of disappointed
darkness is place of the turn point
darkness just a change a everything
darkness teach a small thing
if the tiny dot of the brightness
it gives the happiness
never you had success something the
 biggest the thinking of life
but you know that so small as
you knows as small as thing happen
darkness teach a one thing
not make something you success
in the life it a step for other level

Living a life without Father
Is something worst in everyone's
life?
I'm undergoing that at present.
Some people yell at us, some talk
behind,
Some are Fake,
Make us to regret,
Will say they are but not,
They are the one who teach us to be,
Independent, strongest and confidential,
Fatherhood is a priceless gift,
Which is loved by daughters?
Don't know how many are lucky to acquire this gift,
But, my life is unlucky.
Each of your words is true,
I didn't knew the value,
At times it remembers me.
Left you while you are alive,
Now, you are TREBBLY missed but passed away,
By handing a precious gift to me,

In front of food truck
Go outside and return back late night
Take long walks with their favorite person in the
midnight
Chat with their friends for long hours
Travel alone in a journey
Laugh louder when she hears a joke
Sit in front of relatives with their heads straight
But the reality hits so hard
Nobody is there to listen her misery
They are laborious all day with their knee pain
Spending time within the small circle
By doing all the household chores
Sacrificing all her dreams and desires,
For the welfare of her family.
To fulfill all needs of the family.
According to me,
They are the unseen Angels of the real world.

Tribute to Teacher

Teacher paint our mind
Guide our thoughts
Shares their achievements
Advice for our faults
Inspire a love of knowledge and truth
Lighten in the right path
You have encourage us to involved
In co- curricular activities apart from studies, and also guides us to win.
Tones of thanks in honor of them
We have to say not just one day
For turning a stone to sparkling gem
We need to bow head every day.
Well, just wanted to say that
You are not just a teacher you're our supporter and we'll wisher.

Hope of light

Life is like a drama,
With blooming flora and fauna.
Between the desperate of creatures
I am a bird of unconscious Earth
With eyes bubbling with tears.
Holding up the light of HOPE!
A dense gloom of night changes my dream into
"Nightmare"
Like a lonely bird wandering in the sea.
With rejection, distress and agony.
I am the bird who discovers solitude.
Finally waiting for my demise...

Haunting

Oh! My humble heart,
Keeping every jiffy moment's,
As it starts to consume and haunt.
Until it sophisticate me,
Where it comes to poignant point.
No more looking back,
Let's be genesis.
Pit-a-pat skips a beat,
Totally looted every crumbs of my brain,
Hopes gone miles away,
Still there's some ominous feeling,
Oh my god! Again and again haunting me.

A Good Teacher Education

A good teacher is that special gem
They do much more than teach
They feel you through learning
There is no star you cannot teach.
Like many precious diamonds,
Good teachers are hard to find.
However, it can sometimes be found.
A rare and irreplaceable species,
It's not like everyone else
Because it outshines the rest.
You'll know it when you see it
That this stone is the best.

Impact of Education

Education changes a person.
Even from the low level of economic status to high level in life.
Education will give us pride and confidence,
With the help of education we can achieve anything easily.
Education comes from educators and parents,
From birth to death we are learning something new in the world.
Education is a teaching and learning process,
With the help of education we can achieve the dream of us.
As a teacher we want to encourage a student to achieve big.
Lack of education is extremely causing harm to the society.
No ever road to success has been smooth but,
Education makes the road to success as the reason for all the celebration to success.

Testimonial

Gomathy. S,
B.Ed. (2020-2022)

I found the Theivanai Ammal College of Education to be a milestone in my professional and personal life. It has been as fantastic experience. I found the quality of the academic staff excellent. The programmes are well organized and designed to combine academic teaching with learning experiences. This combination really worked and I feel that I have developed knowledge, skills and in personal competencies such as self-awareness, presentations, teamwork, and leadership. The College has a great reputation for results and success because of the dedication, support and motivation by staff. The staff enables students like to accomplish their dreams! It is really one of the best Colleges. I couldn't have asked for more; the teachers were so helpful to me, whenever there was anything I needed or didn't understand they were always there without delay. They made me feel right at home. By the end of year we almost become friends. The facilities were just amazing and the place is homely. Our college experience was definitely one that I will never regret. It was possibly one of the best decisions of my life and I'm so grateful that I had the opportunity to learn. "I just want to thank you all for all your help extended to me and my classmates throughout t the year. I can't express in words how much I appreciate it. It has been a wonderful year and I will certainly never forget it.

Deepika. K,
B.Ed. (2020-2022)

I completed my B.Ed Degree from the Theivanai Ammal College of Education; B.Ed College was a life-changing experience for me. A beautiful and historic campus, classmates from many different cultures and backgrounds, lecturers with interesting insights and academic excellence, a focus on individual personal development, a team-based approach to assignments so essential in today's time , all of these have truly been one of the most profound experiences of my life till date. It has given me the confidence to move ahead in my career. The teaching staff was very patient and many times stayed back after college hours to make sure we understood a concept. Our Principal is the main binding agent between staff, students, administration and works diligently to give us a hand on field experience. He is extremely knowledgeable and a modern thinker. This percolates down to the teaching staff. Here at the institute they believe more learning happens with love and tolerance. With these qualities any big the task is achieved within a time frame. Working efficiently with quality results under pressure is what I have learnt here. This skill is what sets a true teacher apart from an occupational teacher.

Nivetha. S,
B.Ed. (2019-2021)

I have studied at Theivanai Ammal College of Education, and it was an absolutely unforgettable time in my life. While studying in Theivanai Ammal College of Education, I grew as an individual and learned to interact and talk to people. It was more than just a great study experience. The staff there helped me to settle in and develop a better understanding of life, adapt to the study methods used in higher education and build up a social and support network which has been very helpful in future. The teachers at TACE are real people with real personality, who care about their students and helped them to make it shine. I would definitely recommend TACE as a learning center. I would have got lost without the fundamental training which I received in TACE. My experience at TACE was wonderful which something I can remember whole life. Last but not the least the environment at TACE is just amazing and the campus is very beautiful.
